SEVEN T'S INTRINSIC—The true sign of a great breeding bull is when he produces sons better than he is. King George has certainly done this with "INTRINSIC". He's not only a larger bull than George, but a bull with great natural thickness, especially through the round & rump where thickness is most important. Use Intrinsic on "Milkers" to maintain size and improve thickness. We have been using Intrinsic on heifers this fall.

WESTON DERINGER—This bull could end your herd search for a herd bull. Sired by Weston Dynamo x and out of a "Fillet" dam. Here is performance with eye appeal. This bull has body length with thickness and muscling, plus being correct on his feet and legs. Deringer has been grown out on grass and shows his ability to convert roughage to red meat.

The years continue to add evidence that giving each buyer an over-flowing measure of square deal is the smartest business practice any breed auction can follow and that can be said of POLLED CONGRESS to date. The who's who buy here. They have learned by experience that there is no more dependable foundation for a leading herd than championship blood and it can always be found at these NATIONAL EVENTS. **COME AND PROVE IT TO YOURSELF!**

T P S PERFECT COUNT 8th—This bull is out of the last daughter of the mother of "Cat 20th". The Cat 20th and Ball Dee has been one of our best crosses. A full sister was in several gets by Ball Dee in our '74 show herd. A 7/8 brother topped the '75 Spring Performance tested bull sale at Columbia, Mo. at \$3,200 to Floyd Mette of Missouri. Another 7/8 brother sold to Midwest Breeders Coop. at \$5,000. A maternal brother to the mother of this bull was the second top selling bull at the '74 Polled Congress at Kansas City at two-thirds interest for \$4300 to Ralph Phillip, Red Oak, Iowa. We have used this bull on 12 cows and we will be getting his calves in February. The 205 day weight, 632 lbs.; adjusted daily gain of 2.74 lbs. and a frame score of 5. The 365 day weight of 1122 lbs.; adjusted daily gain of 3.06 and a frame score of 5.

WHITE GIANT—The genetic potential of this bull is outstanding—long and exceptionally well muscled. His 205 day weight was 690 pounds and 365 day weight of 1130 pounds. His sire, bred in the Haumont herd, has seen service in the herds of Rick Graff and Danny Bartelma where he has been an outstanding sire of tall, long, straight-lined club calves. His dam was purchased at the Iowa Royal Sale by Rick Graff from whom we purchased her and has been an unusually good producing cow.

J W B ALLIED ADVANCER—We believe ADVANCER is a very promising young herd sire. He is by the great Graham Land & Livestock bred bull, Spiro, and out of one of the best cows you could ever find. His dam is a 1500 lb. all beef cow, a tremendous milker, and has already raised one All-American for us. ADVANCER has style, size and muscle—we think he will be a great breeding bull.

T P S CORONET MOMENTUM 12th—The mother of this bull was in our show herd of '71. She is the grand-mother and mother of the Great White Hope calf and his mother that sold in our '75 fall sale at \$2,450 to Willard Beckman of California. We are finding out that the Cat 20th—Dutch cross has been really working for us real well. The just weaned Dutch calves in our sale averaged \$850. The 205 adj. wgt. of 579 lbs. and an adjusted average daily gain of 2.48 and a frame score of 4. The 365 final weight of 1040 lbs. and a 365 adjusted weight of 1049 lbs. The adjusted ave. daily gain of 2.94 lbs. and a frame score of 5.

E F VICTORIA—What a sale attraction! E F Victoria has really been one of the highlights of the Odis Lowe herd. She was Grand Champion at the 1975 National Junior Beef Heifer Classic, one of the largest heifers shows held; 1st place at the 1975 East Texas State Fair; Grand Champion 1975 Winnsboro Livestock Show and '75 Grand Champion, Wylie Livestock Show. Is safe in calf to **E F HONCHO**, bred December 31, 1975. E F Honcho is a 2 year old bull from the Lowe herd and he has put some outstanding prospects on the ground. This calf should also prove to be a winner.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers, sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial, for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
